SKILLS

- **Languages:** C++, C, Python
- **Python Libraries:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
- **Tools/Platforms:** Microsoft Excel, Power BI, Git, GitHub, VS Code, MySQL, Idle
- **Core CS:** DSA, OOP's, Computer Networks, DBMS
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability, Time Management

PROJECTS

Indian House Price Prediction App | [GITHUB](#): April 2026 - May 2026

- Engineered an end-to-end ML pipeline on 2,50,000 Indian property listings using Python, scikit-learn, and Flask, deployed live on Railway.
- Developed and compared 4 ML models — Linear Regression, Ridge Regression, Decision Tree, and Gradient Boosting — evaluating performance using MAE, RMSE, and R^2 metrics.
- Deployed a Flask REST API with a /predict endpoint serving real-time price predictions, accessible via a live web dashboard.

Tech: Python, Pandas, NumPy, Scikit-learn, Flask, HTML, CSS, JavaScript, Git, GitHub, Railway

Flight Insights Dashboard | [GITHUB](#): March 2026 - April 2026

- Analyzed airline performance, flight trends, and operational metrics through an interactive Power BI dashboard.
- Transformed and prepared flight datasets using Power Query while creating analytical measures with DAX.
- Visualized flight patterns and airline KPIs using interactive charts, slicers, and filters to derive actionable business insights.

Tech: Power BI, Power Query, DAX, Excel, Data Visualization

TRAINING

Centre for Professional Enhancement LPU-Data Analytics | [Certificate](#): June 2026 - July 2026

- Implemented practical data analytics techniques using Excel, SQL, Python, Power BI, Tableau, and AI-assisted tools for data preparation, analysis, reporting, and business intelligence.
- Built the AgriInsight Pro – Crop Yield Intelligence Dashboard in Power BI, working with 16,000 agricultural records across 13 states, 14 crop categories, 3 seasons, and 18 years using Power Query, DAX, and star-schema modeling.
- Applied data cleaning, validation, DAX measures, KPI design, slicers, and interactive dashboard techniques to identify trends in crop production, revenue, yield, geographical performance, and seasonal patterns.

CERTIFICATES

- Python | [Kaggle](#) September 2026
- Data Science Landscape | [IBM SkillsBuild](#) September 2026
- Introduction to Data Science | [Infosys](#) September 2026
- Database Management System Part – 1— Wingspan | [Infosys](#) August 2026
- GEN AI NASSCOM Skill Development Program | [Certificate](#) March 2026
- Claude Platform 101 | [Anthropic](#) March 2026

CO-CURRICULAR ACTIVITIES

- Presented academic projects involving data analytics, interactive dashboards, and machine learning.
- Participated in technical seminars and learning activities related to emerging technologies and Data Science.
- Participated in technical workshops and skill-development programs focused on Data Analytics, Business Intelligence, Python, SQL, and Power BI.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.42 August 2025 – July 2028
- **GLOBAL COLLEGE OF ENGINEERING AND TECHNOLOGY** Kadapa, Andhra Pradesh
Diploma; Percentage: 77.2% September 2022 - April 2025
- **Sri Chaitanya Techno School** Badvel, Andhra Pradesh
Matriculation; Percentage: 75.3% July 2021 - April 2022
